

**List of Topics
For Debates
2024-2025 academic year**

1. Economic Growth versus Social Equity

- a) Prioritizing Economic Growth: Should Ukraine prioritize quick economic growth at the expense of short-term social safety sacrifices?
- b) Social Justice First: Should economic progress take a backseat while the government address social disparities and fulfil fundamental needs?

2. Land Reform versus Equitable Access

- a) Land Redistribution: To lessen poverty and inequality, should Ukraine adopt a more equitable land distribution policy?
- b) Modernizing Agriculture: How can Ukraine's agriculture industry be made more sustainable and help small-scale farmers at the same time?

3. Priorities by Sector:

- a) Industry vs. Agriculture: Should Ukraine give industrialization and economic growth less weight than agricultural development and food security?

- b) State versus Private Water Resources Management

4. Renewable Energy vs. Traditional industry

How can Ukraine strike a balance between the need to preserve traditional industry and the shift to renewable energy?

5. International Cooperation vs. Domestic Priorities

- a) International collaboration: Is it better for Ukraine to put more of an emphasis on international integration and collaboration or on homegrown development?
- b) National Sovereignty: How can Ukraine strike a balance between addressing global issues and its own interests?

6. Gender Parity and Financial Progress

- a) Trade-offs: Can Ukraine attain economic growth and gender equality at the same time, or are there always going to be trade-offs?
- b) Empowering Women: What measures can Ukraine take to enable women and girls to take full roles in the workforce and society?

7. Environmental Protection versus Economic Development in Ukraine

8. Higher Education: Compulsory versus Obligatory
